*Contractors For Kids vision is simple; to eliminate financial hardship in our communities brought on by the sickness of a child. One family at a time, we need to make sure the financial hardship brought on by a sick child does not destroy an already hurt family. Whether it be aiding in paying medical bills deemed “experimental” or due to lack of insurance, **we will be there.** Whether it be arranging transportation or paying for a room to allow families to remain close during these tough times, **we will be there.** In the heart breaking case when a child does not survive their illness and a family needs financial help with burying a child,*

***we will be there.** We will do as many as these things to the best of our ability, **we will always be there,** and for this we are responsible, for this is our passion, for this is our vision.*
