

Dear Contractors for Kids,

Thank you so much for your very generous donation for my children, Samantha and Jake. As you are aware, both Sam and Jake suffer from Cockayne Syndrome, a progressive, terminal illness. The fact that you were able to help us pay for alternative medical treatment, which so far has been the only treatment to show any results, is truly a blessing. I did get the pleasure of meeting a lot of you a few weeks ago at your fundraiser at Southhaven Park and I have to say how friendly and loving you all were. You did an amazing job at your event and I was honored to be there. What you have done for my two children and the many other children you are able to help is just amazing. I am so very grateful for your kindness and compassion for as long as I am blessed to have them here with me. You are all very special people with big hearts filled with hope and love, which you in turn share with those in less fortunate circumstances. Thank you again for making my life and Samantha and Jake's lives brighter.

Sincerely,
Maria Lazazzaro
