

Throughout his short life, my tiny warrior Max has fought Cancer with determination beyond that conceivable of an infant. While he should have been tackling such things as shape sorters and throwing a ball, instead he was fighting life threatening infections, undergoing surgeries and endless procedures at Memorial Sloan Kettering. To make a catastrophic situation even worse, Max and Jake's father was unable to cope and went missing. They have not seen their father in over 5 months. Despite his suffering, Max has always captured the hearts of everyone he meets.

There are no words that can adequately convey my gratitude to **Contractors for Kids**. I am deeply touched by the amazing group of compassionate and generous souls that make up this incredible organization. They have truly been there for us, easing our burdens financially, emotionally and physically. Furthermore, they have helped to restore my faith in humanity and given me and my boys a sense of real support during a time when we have felt very much alone. Contractors for Kids holds a special place in our hearts. They have been an integral part of our healing and will **never** be forgotten by my family!!

With love and admiration,

Sandi Frank
