

To Contractors For Kids.

I would just like to say thank you to Contractor's For Kids from the bottom of our hearts, we greatly appreciate your generosity and support in helping our son by purchasing a the LITE GAIT rehabilitation treadmill, and stepper unit. Jake Brower is an incredible little boy, he has fought so extremely hard to overcome his severe disabilities he suffered during 2003/2004 at age 5. Jake and our family have worked with all of our heart and souls, and resources to bring Jake as close as physically possible towards recovery. Our family has exhausted all of our financial resources during our quest to acquire medical treatments and medical equipment for Jake. We were extremely blessed to have been introduced to your fine organization by Bob Policastro of Angela's House which is another wonderful organization. Contractor's For Kids has made it possible for Jake to continue his incredible progress. Without your generous gift, Jake would be unable to take his next steps toward recovery. The equipment that CONTRACTOR's For Kid's purchased was denied by our insurance company, costing thousands of dollars as you well know, but is essential for a person affected by traumatic brain injury. Repetition has been proven successful in helping to retrain the damage brain. The Lite Gait unit supports Jake's body while placing him over a treadmill with the stepper attached it allows Jake to be supported while walking and taking steps on the treadmill; it also has the ability to reduce the support as he becomes stronger and more capable. Once again I wish to thank you all from the bottom of our hearts for helping our little hero JAKE.

LOVE,

THE BROWER FAMILY

John, Lisa, Jake, Alyssa, Rachel, & Anthony Brower
